

THE SHOOTER®

Trenchless Pipe Repairs for Main & Lateral Sewer Lines

The easy-to-use and most effective cured-in-place inversion machines available. **THE SHOOTER®** has been specifically designed to simply and reliably put liner in the ground and for over two decades has done just that. **THE SHOOTER®** has been used extensively throughout the United States and Canada, as well as in South America, Europe, and Australia. Inverting with air is fast, and curing can be done through the steam cap while freeing **THE SHOOTER®** for another run or directly through the unit.

Proudly made in Redmond, Oregon, USA. U.S. Patents 6,390,795 and 6,690,313.

*Leader in innovative
engineering and solutions.*

A continuous air-inversion machine specifically designed to rehabilitate sanitary lines without excavation.

With THE SHOOTER[®], contractors can expedite their installations of cured-in-place pipe (CIPP) relining projects.

THE SHOOTER[®] 12" Model

- Built-in lubrication system
- Knife gate prevents deflation
- Ruggedly mobile hand truck
- For 6", 8", 10" and 12" liners
- 4 LIPs and hookups available
- Cure with air/steam or water
- Glass liners and UV Cure possibilities
- New conversion kit for 15" liners

THE SHOOTER[®] 24" Model

- Knife gate prevents deflation
- Rugged trailer mount
- For 15", 18", 21", and 24" liners
- Patented LIPs seal
- Cure with air/steam

CONVERSION KIT for 24"

- For 6", 8", 10", and 12" liners
- Steam cap and nozzles included
- Patented LIPs seal
- Cure with air/steam

12" MODEL

New & Improved Design and Added Features

Image courtesy of OneSite Central

- Fast, controlled, reliable inversion
- Easy set-up, shoot and cure
- Complete multiple runs a day
- All new suspension system & trailer design
- Solidly built for durability

24" MODEL

Fit liners up to 24" Trailer Chassis Mount
