

THE SHOOTER®

Efficient & Fast CIPP

THE SHOOTER® by Emagineered Solutions is the original continuous air-inverter for CIPP and for decades has been the industry standard. Simple to operate and built to last, **THE SHOOTER®** is the right tool to make your company more efficient and profitable for years to come. **THE SHOOTER® 12** has a range of 4"-12" and up to 15" with the *Conversion Kit*, a *Knife Gate* for after the liner tail passes and comes with either the *Self-Lubricating Hand Truck* or the *Basic Non-Oiler Cart*. **THE SHOOTER® 24** for 15"-24" is trailer-mounted and comes with a *Knife Gate* and *Remote Operating Station* on the fender. An optional *Conversion Kit* expands its range from 6"-24". Additional equipment offered include full steam packages with *portable dry steam generators*, *steam hose*, *A and B Stations*, *Water Cure flanges*, and *LED UV Y adapters*.
